ROOFING MATERIALS

FILM PLASTIC

Materials of a high luminous transmission, maximum resistance and durable. Manufactured by a triple layered press.

MESH

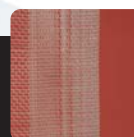

It is used as a covering material or a closing off material for ventilation openings to avoid the invasion of insects.

PRE-LACQUERED SHEETING

Especially for the covering of warehouses, feeder heads, huts, etc.

POLYCARBONATE PLAQUES SEMI-ONDULATED

They transmit 90% of the visible light, a great impact resistance, resistance against aging (10 years) they permit the reduction of heating costs.

POLYCARBONATE PLAQUES CELLULAR

Great impact resistance and a high energy saving.
